CONSULTANT GUIDELINE

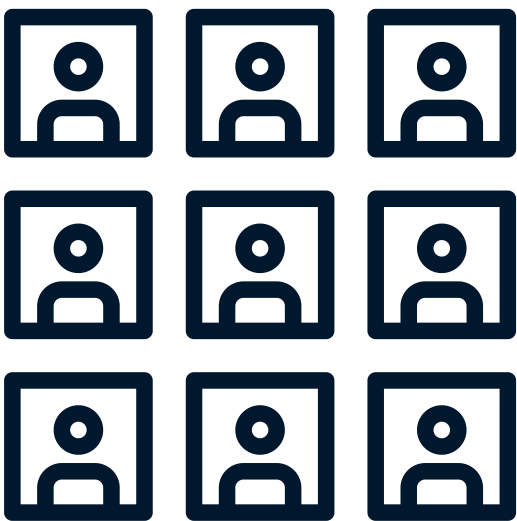

Empowering The Immigration Process

1. Create Profile

The first step for you is to create your profile so you can showcase your credentials to various immigration candidates. You will show case your areas of expertise so by creating your profile on Kandeed you increase your chances of being contacted by an immigration candidate.

“Find Qualified Clients”

2. Search for Clients

Once your profile is created you will have a chance to explore and get connected with various pre-assessed immigration clients using Kandeed's chat and conference platforms. Clients will see your profile and can contact you as well. You can choose the clients that you are interested in.

3. Sign Contract

Once you and a client have had initial discussions and you have picked the right client, you can prepare and send a retainer agreement and send to your client in your dashboard for signature. A Personalized Immigration Plan (PIP) will also be prepared for you and your client where you can track progress.

4. Get Paid Securely

Kandeed will provide you with peace of mind. Kandeed will keep client funds for each milestone in a safe and the funds are released to you when milestone is completed. Kandeed's secure payment method ensures that clients funds are available before the milestone has started.

5. Service Providers

On Kandeed, you as the immigration expert have access to various types of companies, individuals and institutions that provide immigration related services and can help you with your immigration and visa cases. This includes businesses looking for buyers or partners, universities and colleges, incubators and investors and other service providers. Kandeed is the only platform that makes this sort of interaction possible.
